

## EMMA LÖVBRAND

I currently work as an Art Director at the advertising agency Dist in Stockholm, specializing in youth communication.

Last year I ended my Interactive Art Direction studies at Hyper Island, and spent the last three months of my education at Great Works in Barcelona.

I believe in interaction in the true sense of the word - two way communication without limitations to a specific media.

To me a crossword puzzle is as interactive as a wicked mashup between Google Earth, a webcam and your nineteen favorite social media sites.

My heart skips an extra beat or two for projects with real purpose, creativity, a portion of good looks and an aim to solve problems.

I'm fluent in Swedish, English and Adobe Creative Suite.

People I've worked with say I'm creative, organized, positive and good at playing charades.
