

EMMA LÖVBRAND

I'm a multidisciplinary art director with designer skills and focus on both online and offline media.

The past year I've studied Interactive Art Direction at Hyper Island. The last three months of my education I spent as a creative intern at Great Works in Barcelona.

I believe in interaction in the true sense of the word - two way communication without limitations to a specific media.

To me a crossword puzzle is as interactive as a wicked mashup between Google Earth, a webcam and your nineteen favorite social media sites.

My heart skips an extra beat or two for projects with real purpose, creativity, a portion of good looks and an aim to solve problems.

I'm fluent in Swedish, English and Adobe Creative Suite.

People I've worked with say I'm creative, organized, positive and good at playing charades.
